THIRTY-EIGHTH YEAR, NO. 6

HANCOCK HAS GRAVEL INDUSTRY

Weston Sand and Gravel Co. Supplies Material for Great Section

Of the various industries in Hancock county none is more outstanding as builders and factors in the constructive progress of this section and State than the Weston Gravel Company, and it is the purpose of this paper to call attention to the success of this concern and what it means to the county.

The Weston Sand & Gravel Company was primarily established to furnish sand and gravel for the Old Spanish Trail from Bay St. Louis to the Louisiana line and for the Jackson Highway from the Pearl River county line to the junction of the Old Spanish Trail; the Markham hotel in Biloxi, the Edgewater hotel in Biloxi, the Tivoli hotel in Biloxi, the Biloxi hotel and the Beuna Vista annex in Biloxi. They have also furnished the following seawall projects: the Pascagoula seawall and roadway, Hancock county seawall and roadway, and participated in the Harrison county seawall and sidewalk in addition. They have furnished the material for the Ocean Springs and Bay St. Louis high schools, the material for the street paving program in Piquette, Miss., and for the grammar school, as well as for the Bay St. Louis bridge.

"Among the most notable accomplishments that the Weston Sand & Gravel Company has participated in has been the development of the 'Pearl River Waterway' in connection with Mr. M. Lockett and Mr. S. Nelson of the A. M. Lockett Company, Limited, New Orleans.

"Through this medium the Weston Sand & Gravel Company is able to produce the cleanest washed gravel obtainable from a new material containing more clay, leaves, bark and other foreign matter than any other operator and at a very slight additional cost.

"The main contributing factors in the success of this company in addition to the satisfactory service that it renders to the officers who are as follows: Clem W. Weston, president; Coburn L. Weston, vice-president; Lamar Otis, secretary-treasurer; Harold B. Weston, E. C. Weston, Waldo Otis and Sidney Otis, directors."

Remodels Wee House Into Charming Home

Miss Mayme O'Dom has remodelled a wee house on Carroll avenue into a charming home, through careful planning of details, through advisable arrangements and through a most delightful landscaping of the grounds of the place. Miss O'Dom purchased the lot on Carroll avenue adjoining a larger house and she owns there some months ago and has been planning to remodel it into a residence which she will occupy and she is now moving into her new house.

The entire interior was effectively sealed and walled with wall board which has been tinted ivory and trimmed with stripes of stained wood which harmonizes with the other stained woodwork. A garage has been built at the side of the house, and a cozy home is the result.

It is primarily with the exterior that the house conforms however for a delightful view planning has been carried into successful formation. A distinctive trellis has been erected from the small house to the large house so that the two buildings hold together as a unit of development. A winding driveway will follow under the trellis and the original trellis will be covered with a wisteria vine from the large vine of this lovely flower which climbs one of the huge cedars on the grounds. All the foundation shrubbery growing on the lot was left and the planting of shrubs laid around this original growth. The lawn is to be grass seeded and the driveway gravelled.

In her artistic and unique landscape plan Miss O'Dom has demonstrated how with good taste, infinite planning and application to detail can create from small expenditure a charming home and yard.

Circuit Court Will Convene February 25

Announcement is made that the regular term of the circuit court of Hancock county will convene at the court house Monday, February 25, with Judge W. A. White on the bench. There are not a great number of cases on the docket and none of major importance.

Both the Hancock County Bank and Merchants Bank & Trust Company Will Be Closed Tuesday, Mardi Gras Day

Both the Hancock County Bank and Merchants Bank & Trust Company will be closed Tuesday, Mardi Gras Day in conformity with the custom of the banks in this section. The property of B. C. Gallagher will be sold for a foreclosure on a lien.

Property Ordered Sold by Chancery Court Will Be Sold Monday, March 4

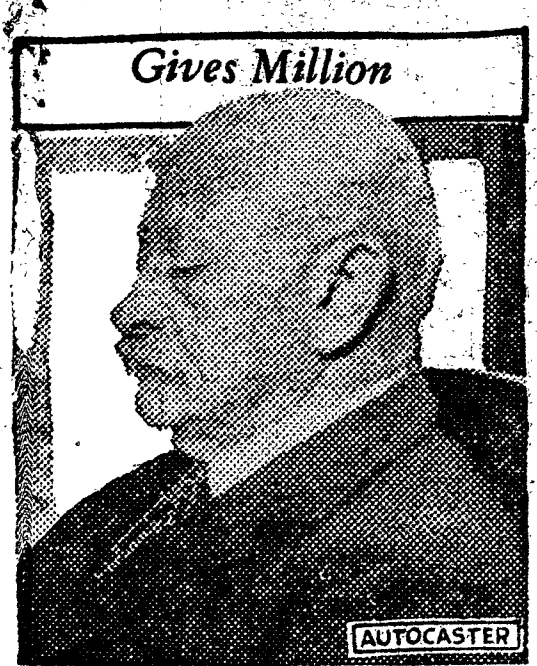

A. G. Favre, as commissioner appointed by chancery court, will sell at public auction Monday, March 4, at the courthouse several pieces of property which was ordered sold as a result of decisions in chancery court cases at the recent term.

Included in the property to be sold is the DeMontuzin property fronting 250 feet on North Front street in which the deceased J. A. DeMontuzin held an interest and which is sold for partition to settle the estate, and several other small pieces of property of the J. A. DeMontuzin estate will be sold for partition.

The 488 foot lot on Main street east of Dunbar avenue owned by Walton will be sold for foreclosure on a lien.

A lot on Nicholson avenue, a lot on sidewalk and Conrad streets and several lots in the Bay St. Louis Land & Improvement Company, owned by M. Walsh will be sold for partition.

A forty acre tract owned by Alter and his wife will be sold for partition.

Lucius N. Littauer, millionaire retired glove manufacturer, 70, has made a gift of one million dollars to "aid humanity," credited to one of many charitable organizations founded by this millionaire.

COMMERCE SECRETARY RESIGNS

Bay St. Louis Organization Accepts With Regret Resignation of C. G. Moore

It was with regret that the Bay St. Louis Chamber of Commerce accepted the resignation of C. Greer Moore as secretary. Mr. Moore stated in his letter of resignation which was tendered at this meeting that his reason for giving up the office was that he could no longer devote sufficient time to the duties of the office as he would make his headquarters for real estate office in New Orleans rather than here as he has done in the past, but will continue to operate as a real estate dealer in this vicinity.

Mr. Moore has served the organization faithfully for several months and is quite popular with the membership who regret to lose his services. No secretary was elected to fill this vacancy. Miss Mat Ladner, assistant secretary of the Chamber of Commerce, these two called personally on the required number of subscribers. At a previous session when the Chamber of Commerce

first undertook the fostering of this project a number of signers had been secured.

The necessary number was 462, and the committee secured 463. The papers and signatures were mailed Thursday to the state railroad commissioners for investigation and ratification so the privilege of installation of the new phones may be obtained. It is believed that action on the work will be taken soon and the plans for the installation of the system made by the phone authorities.

In discussing the work of securing the signers Mrs. Leonard said, "I enjoyed my work. I particularly wish to thank all who so courteously and kindly signed the petitions and everyone who assisted me in this work. I am especially grateful to Mrs. Fournier for her work in Wave-land. Miss Mat Ladner has been most helpful and efficient in aiding me in this work and she receives my thanks. My personal happiness in this opportunity to serve my fellow citizens has been great and I thoroughly enjoyed meeting and talking to so many of our fine Bay-Wave-land citizens who have shown their usual progressive spirit in furthering this work."

The entire structural part of the building is finished, the steel work being done, all hollow tile work will be finished Tuesday of this week, the work of putting on the stucco finish roof is on the building and the shed roof is on the building and the shed from the building to the track is finished. All cast stone work has been set over the windows and entrance.

The inside work will be started next week, it was said.

This building which replaces a former wooden structure which was destroyed by fire last year, was begun in October and the contractors have pushed it to completion. The building is one of the finest in appearance to be found in this part of the country and will be a decided addition to Bay St. Louis. Set as it is in a beautiful park the depot receives added dignity from its good location.

BOARD OF TRUSTEES ELECTS

President Marshall and Secretary Mitchell Re-Elected—High School Expands

At a regular meeting of the school trustees last Thursday night, Mr. Donald Marshall was re-elected president and Mr. Chas. Mitchell was elected secretary for 1929.

It is interesting to note there are 775 pupils enrolled in public schools of Bay St. Louis, twenty-five teachers are employed and for the first time it has been found necessary to use the high school auditorium as a classroom.

The spacious new high school building constructed about two years ago and with more than necessary space, is already crowded and it is possible a new annex will be necessary within a comparatively short time. This speaks well for the success of the school.

Prof. S. J. Ingram is superintendent.

Cars From Many States

A motorist traveling from Long Beach to Bay St. Louis Monday afternoon during the rain began to observe the license on passing a car from other states than Mississippi and noted two from Florida, two from Michigan, one each from Texas, Alabama, Tennessee, Louisiana and New Jersey, all going eastward on the Old Spanish Trail. Motorcycle policemen were that there is a car from each of these states.

Both the Hancock County Bank and Merchants Bank & Trust Company will be closed Tuesday, Mardi Gras Day in conformity with the custom of the banks in this section.

The property of B. C. Gallagher will be sold for a foreclosure on a lien.

SUFFICIENT SUBSCRIBERS HAVE BEEN SECURED FOR FLASH LIGHT TEL'PHONES

Committee Reported At Chamber of Commerce Meeting Required Number of Signatures—Mrs. Leonard and Mrs. Fournier Are Complimented

The special Chamber of Commerce committee headed by Mrs. E. J. Leonard which was designated to secure the required two-thirds of the present subscribers to the Southern Bell Telephone Company to sign for the proposed new flash light phone system to replace the present system, reported Tuesday night at the C. of C. meeting that the needed number of signers had been obtained. This information was greeted by the members of the C. of C. with great pleasure for it represents one of the most progressive moves which have been made in public utilities in this section in some time and will mean great deal of additional satisfied service to the users of phones.

Mrs. Leonard and Mrs. A. F. Fournier had been named as the special committee and Mrs. Fournier worked in Wave-land on the project until she moved to New Orleans for the winter, then the greater portion of the work of securing the phones devolved upon Mrs. Leonard, who was assisted by Miss Mat Ladner, assistant secretary of the Chamber of Commerce. These two called personally on the required number of subscribers. At a previous session when the Chamber of Commerce

first undertook the fostering of this project a number of signers had been secured.

The necessary number was 462, and the committee secured 463. The papers and signatures were mailed Thursday to the state railroad commissioners for investigation and ratification so the privilege of installation of the new phones may be obtained. W. T. Kemper, Jr., is only 33 but is president of three banks, the National of Independence, the Citizens' National of Frankfort, Ky., and the Kemper State Bank in Louisville, Mo.

DIP FLUID PURCHASED BY BOARD

Supervisors Transact Routine Business at February Session—New Member

The Hancock county board of supervisors met from Monday to Thursday of this week to transact the regular February business of the county. Much of Monday was spent in listening to various discussions and questions regarding the cattle dipping for the elimination of ticks which the federal and state laws have put into force and which is to begin in this county in March. While the board does not supervise this dipping yet a number of matters over which the board has jurisdiction and which touches on the dipping question were discussed with farmers and cattle owners.

The board had advertised bids for the purchase of 2300 gallons of dip fluid. The bids were opened Monday and the contract to supply the material was let to the Chipman Chemical Company through the Atlas Drug Company. The price to be paid is 59 cents a gallon, said by the federal veterinarians present at the letting of the purchase contract, to be the lowest price they have heard quoted for this fluid.

The board made the order at this meeting for the appointment of an agricultural agent for the county to handle the extension work in this county under the state A. & M. Extension department. At the January meeting the board approved such an appointment and at the February meeting announced the receipt of the approval of the attorney general to appropriate the funds for this agent. It is understood that the appointment of the agent will be made next month.

John B. Wheat, of beat 2, newly elected supervisor to fill the vacancy created by the death of the former member, John Brown, was seated as a member of the board. Mr. Wheat was welcomed by the other members of the board several of whom he has served with on the board during his previous terms as supervisor.

BEACH BLVD NEW NAME FOR FRONT

City Commissioners Designate Front Street as North and South Beach Blvd.

At the regular meeting of the board of city commissioners held Tuesday as a postponed meeting from Monday, the street along the beach hitherto known as Front street has been renamed and is henceforth to be known as Beach street. That part of this street from Main street northward to the city limits shall be known as North Beach Boulevard, and that from Main street southward to the city limits is to be known as South Beach Boulevard.

At this meeting the board transferred the sum of \$77.96 now in the sidewalk fund to the special improvement bond fund where this sum can be used to retire bonds.

ST. MARGARET'S WILL GIVE TEA

St. Margaret's Daughters decided at the regular meeting Wednesday afternoon to give a silver tea at the Hotel Weston Friday afternoon from 3 to 5 o'clock, to which the public is cordially invited. An interesting entertainment program will be presented and a dairy tea served.

The purpose of the tea is to reimburse the treasury, as the many calls on the society for aid during the influenza epidemic made heavy drain on the treasury and the ladies desire to raise funds for future charitable calls.

The tea will be well attended and in order to accommodate the large number of guests, the ladies have decided to have a dairy tea served.

Attend Silver Jubilee of Rev. Joseph Annis

Three Coast pastors, namely, Rev. A. J. Gmelch, of Bay St. Louis; Rev. G. M. Costello of Wave-land and Rev. J. W. Leach of Pass Christian were guests Tuesday, January 28, at the Silver Jubilee of Rev. Joseph Annis of the Sacred Heart Catholic church at Hattiesburg.

Guests and guests from all parts of the state were in attendance. Rt. Rev. Richard O. Garow, Bishop of the Natchez diocese, presided at the service and made Rev. Annis a canon of the church on this occasion.

Three stop on the Coast, others are only passing through, but it is safe to assume that every one of these traveling preachers has a story with a happy ending.

During Wednesday night an interesting well attended and in order to accommodate the large number of guests, the ladies have decided to have a dairy tea served.

The tea will be well attended and in order to accommodate the large number of guests, the ladies have decided to have a dairy tea served.

NURSERIES IN STATE ON INCREASE, SAYS A. & M. COLLEGE

Interesting Figures Regarding Certified Nurseries and Greenhouses in Miss.

The number of certified nurseries and green houses in Mississippi reached 280 during 1928, which is the largest number ever certified in one year, according to the State Plant Board. These nurseries vary in size from only a few plants in the smallest to 500 acres in the largest peach nursery in the world. They are all inspected three times each year for insect pests and plant diseases, and every effort is made to see that buyers get good healthy plants.

The nurseries are well distributed, though more of them are located in the southern half of the state than the northern. Citrus and pecan nurseries are especially numerous in the counties near the Gulf Coast. Ornamental nurseries lead in number with 92, while there are 67 general nurseries handling a varied assortment of plants. Only 21 nurseries deal wholly in pecans and only 6 exclusively in citrus trees, but there are 20 others that sell both citrus and pecan. There are 34 strawberry nurseries, and several others that grow only grapes, pears, figs, or some other one plant exclusively. A list of these certified nurseries will be sent to anyone requesting it from the State Plant Board at A. & M. College.

The nurseries are well distributed, though more of them are located in the southern half of the state than the northern. Citrus and pecan nurseries are especially numerous in the counties near the Gulf Coast. Ornamental nurseries lead in number with 92, while there are 67 general nurseries handling a varied assortment of plants. Only 21 nurseries deal wholly in pecans and only 6 exclusively in citrus trees, but there are 20 others that sell both citrus and pecan. There are 34 strawberry nurseries, and several others that grow only grapes, pears, figs, or some other one plant exclusively. A list of these certified nurseries will be sent to anyone requesting it from the State Plant Board at A. & M. College.

Bay St. Louis, Miss., under Act of March 3, 1879.

Old jokes are what put the "rag" in paragrapher.

Peddlers, so far as we know, have built up no towns.

It isn't strange that a Byrd can fly over the poles.

This is the time of the year not to skate on thin ice.
The Bay St. Louis flappers want to know who put the
"harm" in charm.Most of last year's plans for "next year" are not yet
under way.The flowers that bloom this spring will have to be
planted before this spring.Most businesses show profit if the owner does
enough shoveling.Interesting statistics: The American people ate 888-
000,000 "hot dogs" in 1928.The Pontchartrain Bridge Company is getting lots
of free advertising—but not the right kind.Correct this sentence: "I think everybody ought to
contribute to the extent of his financial ability.
Here's my dime."There is one auto for every five persons in this coun-
try, but the average pedestrian thinks it is the other
way round.Few cities have organized "peddler" clubs. These
visitors don't stay anywhere long enough to join any-
thing.If every bill that is introduced into the legislative
halls should become law, the country would be in the
same fix, it would have too many laws.Pity the poor Chinese; they have only one auto for
every 21,257 inhabitants. The Mississippi gasoline tax
would not prove remunerative to the government.A soap manufacturer says that blondes, brunettes
and red heads use his soap. Now if he can get the
tramps, loafers, beggars, and hoboes to do the same,
we will move that it be made unanimous.The man who pays \$25.00 for one japonica plant to
be transplanted to his own place of residence gives evi-
dence of the extent of his good citizenship and what he
is worth to the community.The hand of time has laid its touch heavily on "Beau-
voir." The ranks of the Confederate soldier is dimin-
ishing rapidly. Supt. Tart announces accommodations
available for sixty prospective inmates.Frequent and heavy snow falls in the Mississippi val-
ley and contiguous territory cause apprehension for
another flood peril in the lower valley this spring and
summer. May the experience of last year be never
repeated.Well, last week a bus and a train hit the same cross-
ing at the same time, and a score of people were killed.
A heavy snowstorm obscured vision, but the accident
will not be in vain if other bus drivers learn to be more
careful.Our own idea of calendar and blotter advertising is
that it pays—the man who sells the blotters and calen-
dars. Although we print both, we have never seen any-
thing yet to equal the pulling power of newspaper ad-
vertising. There is no comparison.Every resident can do a little to beautify Bay St.
Louis. Local ladies believe in beautification and are
doing well to extend their activity. The new L. & N.
depot building and grounds should prove a constant in-
spiration for a town of beauty and joy forever.Gulfport, like Bay St. Louis, must have its Chamber
of Commerce. It is not only essential and a necessary
adjunct to every town and city, but an asset of ines-
timable value. Committees in charge of the campaign
to raise \$20,000 for the Gulfport body have more than
\$10,000 pledged.Mississippi Gulf Coast rich in historical fact and leg-
end, will not be without a Mardi Gras celebration. Bi-
loxi, one of the oldest cities in America, announces two
Carnival parades, day and night; the day's festivities
ending with two ball celebrations—one for the queen
and the other for the king. Enterprising citizens and
civic organizations are to be congratulated.John T. McDonald & Son, of Pass Christian, and equi-
ally well known in Bay St. Louis, where they have built
a number of outstanding structures, have been awarded
the contract to construct the new administration
building for the Harrison-Jackson-Stone agricultural
high school and junior college at Perkinston. The
contract price is \$28,646. Weaver and Conn, Gulf-
port, awarded contract for plumbing and heating, \$4-
462; Hamilton Brothers, Gulfport, contract elect and
metal roofing, \$8,094; Standard Electric Company, of
Gulfport, electrical wiring and fixtures, \$824. It is
estimated that the contracts were awarded to foreign or
local firms.

COOLIDGE'S WARNING.

In his last address to the business organization of the Government, President Coolidge called attention to the rapidly mounting cost of state and local governments, saying that from \$3,900,000,000 in 1921, the National Industrial Conference Board estimates that they have reached \$7,931,000,000, in 1927. That this is a serious matter is seen from the following observation of the President:

This is such a heavy drain on the earnings of the people that it is the greatest menace to the continuance of prosperity. It is a red flag warning us of the danger of depression and a repetition of the disaster which overtook the country in the closing days of 1920. It is a warning that should be heeded by every one entrusted with the expenditure or appropriation of public funds.

The Sea Coast Echo hastens to advise legislators and local officials to read and ponder what the President has said.

HONESTY.

Governor Sampson of Kentucky is starting a very worthy movement indeed. He believes too many people are "indifferent honest" and thinks there should be more "affirmative honesty"—especially in business transactions.

He wants a nation-wide survey to stimulate fair-dealing. "Integrity is not vanishing," he says, "and all of us ought to be emphatic in saying so. The understanding is not for the purpose of gathering statistics about acts of honesty. It is a survey of thought concerning honesty."

"The purpose is to increase our realization of the truth that although we all approve the principle of right conduct none of us is as affirmative as we might well be in our aid of increasing the general belief that honesty and good purpose are the prevailing motives of most people."

A great phrase: "Affirmative honesty." It is a quality well worth cultivating. And Governor Sampson is to be congratulated on bringing it so forcibly before the public.

A NEW ERA IS HERE.

Conservative citizens of Bay St. Louis might as well make up their minds that a new era is at hand.

The fact that there are almost 10,000,000 radio receiving sets in this country where there were hardly any ten years ago is one indication of this fact.

That there is an automobile for every five people in this country is another arrow pointing to a changed environment.

The development of talking pictures and probable early availability of television in our homes, opens new avenues of entertainment and of education.

The introduction of mechanical men to perform various tasks and the gradual shortening of the hours of labor mean a great deal to those who think in sociological terms.

It is no longer reasonable or wise to oppose anything on the ground that our fathers found it unnecessary.

A SOCIAL PROBLEM.

In Washington there is an organization called the Congressional Club which is composed of women of the Congressional set. Usually it has been considered that the wife of a congressman was not only eligible but desirable for membership.

The approach to Washington of Representative-elect Oscar de Priest, a negro, from Chicago, has caused an amendment to the Club's constitution to be offered which may see as a method by which the membership of the Club can be made more exclusive.

The interesting fact in connection with this is that this amendment to the provisions of the Club's rules was not offered by the wife of a Democrat from the South but, on the other hand, by the wife of a Republican representative from Indiana.

WATCHING THE LABELS.

During the past few months the prevalence of influenza has caused an avalanche of advertisements from various manufacturers, praising and recommending various remedies for this disease.

"There is no known drug or combination of drugs which will prevent or cure influenza," declares Mr. Walter G. Campbell watch-dog of the Food and Drug Acts, working in the Federal Department of Agriculture.

Mr. Campbell calls the public's attention to the fact that his law does not apply to advertisements but is applied to unwarranted claims on the labels of such medicines and, therefore, exaggerated claims are very rarely found on the labels or circulars with each package. The public should watch the labels.

NOT SO SIMPLE.

The Kellogg-Briand Treaty, which has for its purpose the renunciation of war has been duly ratified by the United States and various other nations. Many of those who voted in our Senate to approve the pact did so without any undue conviction as to its effectiveness.

"I am unwilling to have anybody in Virginia suppose that I am simple enough to imagine that this treaty is worth a postage stamp in bringing about international peace," said Senator Glass, "but, it will be psychologically bad to defeat it. I'm going to be simple enough to go along with the balance of you and vote for this thing."

THE WORLD "DO MOVE."

Just to establish the fact that "the world do move," let us call your attention to the recent radio conversation between Commander Richard E. Byrd's plane, in flight 3,000 feet above the icy wastes of the Bay of Whales, and the radio station of the New York Times, more than ten thousand miles away.

This is quite different from the situation in which Scott and Amundsen found themselves when they battled by sled and foot to reach the South Pole some years ago.

LAUGH AT THIS.

On the fourth of this month the Herald and Examiner, a large Chicago newspaper, published a picture of Norma Talmadge, the movie actress, who was "fak, fak, away," enjoying her winter vacation at St. Moritz. On another page of the same issue told of an interview with her in New York.

If a small paper like The Echo, had done this, many of the wise citizens in this burg would have enjoyed a good laugh on the editor.

NEW YORK TODAY

New York's East Side is far from the forlorn district many suppose. Instead, it is the growing-up place for many of the city's leading citizens of the day and of those who will be heard from during the next decade. Children who used to dance at the hurdy-gurdy, now sit in vestibules and on door steps reading and learning, and there is a business-like "go-gettism" about its residents that inspires many who visit there from other sections. And there is a home life to the children, which, perhaps, is the reason for the rise of the East Side's youth to the heights so many have achieved.

Hester, Delancey and Grand streets are cluttered and busy, but there is a soul to each of them seldom observed by the stranger who cannot expect to know that there is a family tradition among its pushcart vendors and cut-rate clothing merchants. In their homes, perhaps, three dingy flights up over their stores, you will find the gold framed portrait of forefathers looking down from the walls upon tidy well kept rooms.

Farther downtown in the heart of Chinatown you find little Chinese children hurrying home from school and others at play with American games in Pell and Doyer streets. Young Chinese youths attending American colleges sit in the chop suey places, usually reading some literary accomplishment. There are no more long fights. Sinister as the streets may appear at night there is seldom trouble.

The Grand Central Zone is becoming a skyscraper business center, with the new Chanin and New York Central buildings forging their way into the sky. From the roof of the Roosevelt hotel a dozen new skyscrapers can be seen that were not existent five years ago—even three years back. The district has become a super-hub of activity in a few years time.

The city is in a constant process of elimination. Old buildings give way to new. The hardest thing in the world to find in New York is a frame house. There are some, of course, but if asked to point one out, the New Yorker would have to rack his brain to find one.

New York rightfully deserves its name of the "City of rock and steel." Manhattan island rests on a bed of rock, and rock and granite and marble and steel rise from this rock into its towering heights in whose millions of offices the business of the entire world centers around. Only the city parks remain in the downtown zone to show what the older New York looked like.

It is getting to be so the stenographer who works on the fiftieth floor of a skyscraper has to keep her boy friend waiting for that luncheon date sometimes, because even a high speed elevator takes a little time to get its passengers down fifty flights.

Little Echoes.

Airplanes needed for growth says New at aviation dinner.

Bureau reports American shipping reached lowest point in 1928.

Coolidge willing to start work on some cruisers if time limit is dropped.

Spain suppresses rebellion planned in nation wide plot.

Mexico reveals grave crises due largely to impoverishment of mines.

Hoover repudiates story of differing on cruisers in message to Coolidge.

This Week.

(Copyright, 1927)
BY ARTHUR BRISBANE.

Chicago packers say 880,000,000 sausages, commonly called "hot dogs," were eaten last year. Properly made, well cooked, eaten at regular hours and chewed slowly to avoid swallowing small pieces whole, the "hot dogs" are good for men. But, eaten between meals, haphazard and rapidly, they contribute to the 50,000,000 cases of American dyspepsia.

A child in Chicago, five years old, born without feet, will be enabled to walk, run and play by surgeons operating on the muscles of the upper leg.

That is an interesting miracle, and there are many others in modern science. Those born deaf and dumb, that never hear a sound, learn to speak and understand the speech of others. With imagination's power, never having seen the earth or the sun or the sound of a friend's voice, they are able to understand beauty and friendship.

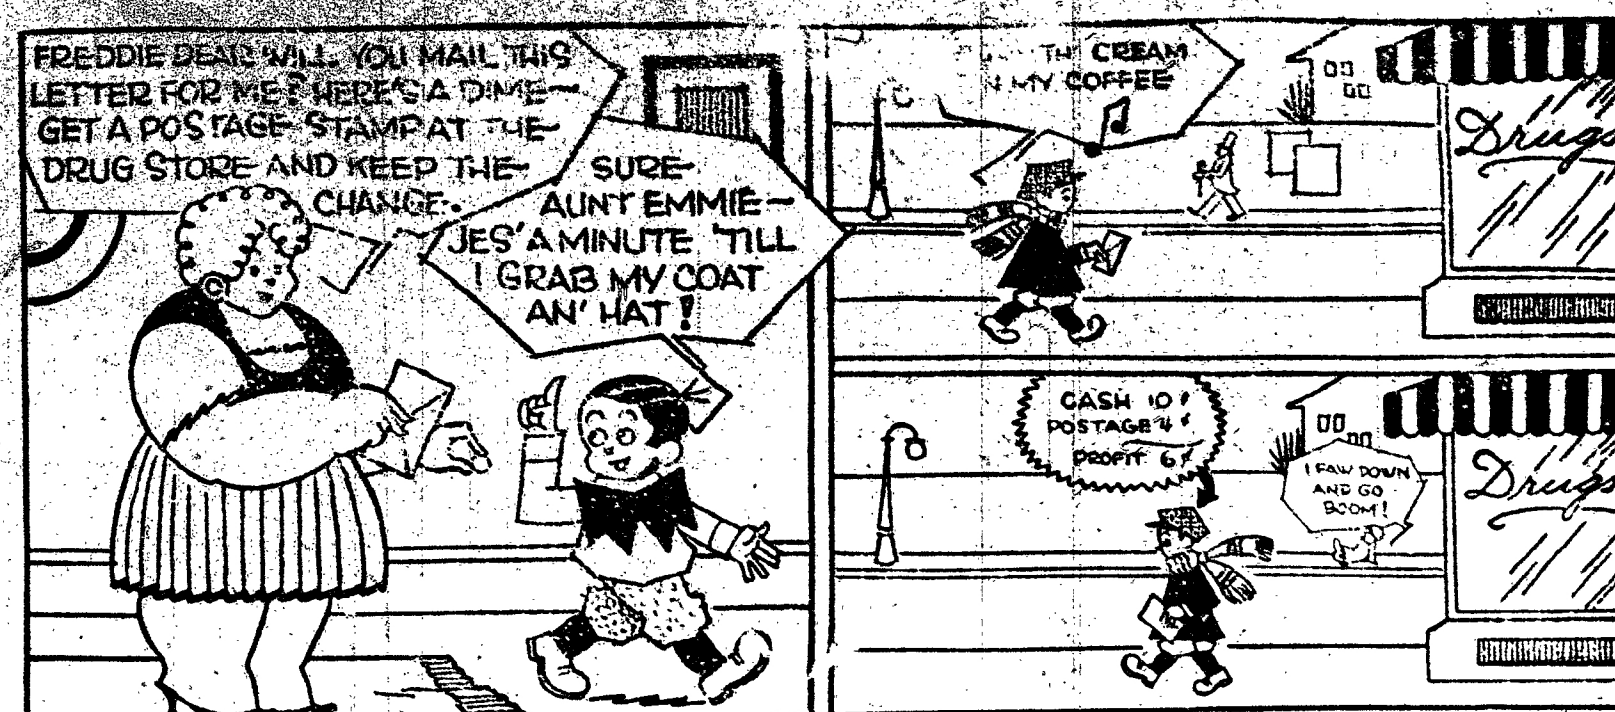

That answers those who ask: "Is there really such a thing as a soul?"

William Hohenzollern, once Emperor, is seventy. He looks well, but disfigured, wears a full beard, mustaches no longer waxed or turned up at the point.

He will celebrate by publishing a book called "My Ancestors." It could be interesting, going back to the early money-lending family of East Prussia that got its name from him. But it's hard to write impartially about your own people.

William decided that some things were wrong in the Hohenzollern family, and blames its troubles, passion, sudden rages, bad temper, etc., on a woman, Maria Pavlovna, Russian by blood, Hohenzollern by accident at marriage. That reminds you of Adam-blaming Eve.

WORK AND PLAY

AT S. J. A.

Basket Ball.

After several disappointments in regard to games due to the bad weather which has been so continuous of late, the present week has at last brought a period of activity to the Jays.

Blue Jays Defeat Kiln.

Tuesday afternoon, the Blue Jays met and defeated the Kiln grammar grade team at the S. S. C. gym, with a score of 14-7. The little Kiln team showed themselves fine sports and are most anxious to have the Blue Jays return their game in the near future. They claim that they can beat the Jays on an outdoor court. The Blue Jays of course won't admit this assertion and are begging for a game with Kiln next week.

Pass Christian Game Wednesday.

The old and the new are scheduled to meet the Pass Christian team on the latter's court Wednesday afternoon—that is if the weather permits, for as this goes to press the weather seems rather doubtful.

Gold Jays-Kiln, S. S. C. Gym, Thursday Night.

Thanks to Brother Peter who has so kindly permitted the Jays to invite the Kiln first team to meet them in a preliminary to the boys' game at the S. S. C. gym on Thursday night, the Jays will at last have an opportunity to win from Kiln the laurels which that team won from them in the hard game fought on the Kiln court before the holidays. Kiln has never yet won a game from the Gold Jays here, and naturally they are most anxious to do so. The game then is bound to be an interesting one for the Gold Jays are determined that S. J. A. will be victorious.

Come on Team! Fight! Fight!

Forty Hours Devotion.

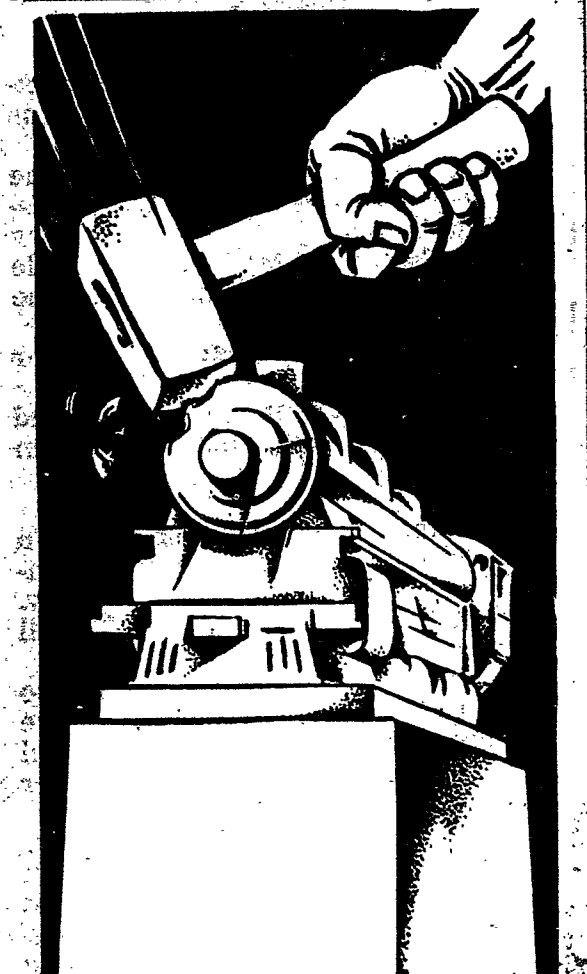

Of all the devotions dear to the hearts of Catholics none is fraught with greater blessings and is in consequence more appreciated by those who recognize its true value, than the Forty Hours Devotion.

For three days the Blessed Sacrament was exposed for our veneration and Christ dwelt in our very midst. The girls of S. J. A. did their best to honor their King in this Sacrament of His Love and they replaced one another continuously for a half hour's adoration at the foot of the altar during the three days of Exposition. May Christ, who showed such love to children during the days of earth, bless our girls as He did the favored ones who were privileged to come to Him on the shores of Galilee.

Children of Mary Activities.

The officers of the Children of Mary held a meeting last Wednesday in which they discussed the regulations of the Guard of Honor during the Forty Hours Devotion.

During the week before last there

Shall Attacking Hands Destroy American Railroads?

The record of accomplishment by the U. S. railroads during the past nine years stands as a monument to their managerial efficiency. Shall this monument be destroyed or disfigured—chipped away by the continuation of a national policy of rate reduction which is constantly cutting down the revenues, or the enactment of unjust laws which inevitably impose further hardships on railroad operations?

The unparalleled public service in these nine years has been produced largely through the investment of over \$5,000,000,000 in improving and modernizing their transportation plants. Yet notwithstanding this huge outlay, coupled with vast economies of operation, the railroads are not earning the fair return on their investment. Such return in 1927 was only 4.66 per cent. Under the Transportation Act of 1920, the railroads were guaranteed a return of 6 per cent, and it is a fact that they have fallen short of earning such return since the law was passed in 1920. The aggregate amount to over three billion dollars. Since there is no guarantee to the railroads against the government, no claim against the government has been made, or could be enforced.

Much less railroads always are expected to be an income tax on the measure of return set up by the Transportation Act. The income tax is a tax on the income of the individual, but it is a tax on the income of the railroads. The railroads are not a business, but a public utility. They are not a business, but a public utility. They are not a business, but a public utility.

They are not a business, but a public utility. They are not a business, but a public utility. They are not a business, but a public utility.

have been 141 masses hard and 44 communions received by the Children of Mary. In the last week there have been 60 Holy Communions and 180 masses. Considering the relative number of members we all feel proud of our record and intend to better it next week.

First Half Completed.

It seems hardly possible yet it is really so, we have already completed the first half of this year's school session. The grammar grades braved the freely again, their mid-term tests are over. The high school girls, while happy that they escape the nuisance of semi-annual exams, are beginning to realize more and more that their days of reckoning will be upon them before they know it. May will be here in a jiffy. A word to the wise is sufficient—let's make hay while the sun shines.

Can You Guess?

Why Grace Lou has no objections to being called a "Mutt"? Why Hazel is looking forward to next Tuesday? Why Francis is saving the envelope her invite came in? Why Kate and Ann didn't want to frighten the lion? Where Dorothy Hubbard rushed Tuesday afternoon? Why Marie wouldn't miss a College game?

DELINQUENT TAX SALE FOR THE CITY OF BAY ST. LOUIS, MISSISSIPPI

NOTICE.

Notice is hereby given that I will on Monday, March the 4th, 1929 at the front door of the City Hall, all legal hours, sell at Public Outcry to the highest bidder for cash the following described land, delinquent for City School, Sinking Bond, Water Works and Special Improvement Tax due thereon for the year 1928, or so much thereof as will satisfy said taxes and all costs to-wit:

MARDI GRAS TRACED TO ECHOES OF WEEK FROM DIM RECESSES OF PAST ST. STANISLAUS COLLEGE

BY NANNIE MAYES CRUMP

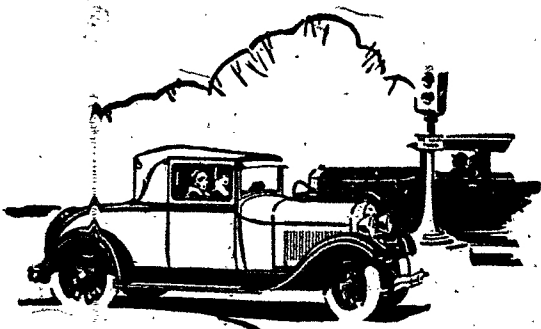

Carnival and Mardi Gras celebrations as known in the United States, especially in New Orleans, had a beginning in various of the European countries and hamlets, the more ornate diversions of today coming only after hundreds of years of practice of a similar custom on a very small scale among peoples of other lands. France, Germany, Austria, parts of Russia, Spain, Italy and England each had the carnival (coming from two words, *carnio*, meaning flesh, and *vale*, meaning farewell, hence farewell to the spirit of the flesh).

Carnival was generally in each country where such observance was held as the three days preceding Lent, the fast before the lent. Mardi Gras, or Shrove Tuesday, translated as Fat Tuesday, was the last day of feasting or pleasure of the flesh before the forty lean days of lent when things of the spirit should predominate. John Cassian, writing in the 5th century, observed that the Christians of the East, and the Christians of the West, retained this perfection unbroken, for then the fast embraced the whole year. Later a number of Christians interested themselves in the thought that it was necessary to have a fast "canonically enjoyed" to recall the memory to religion and to cause them to pay tithes, a practice which was followed to be good for the weak brothers and could not harm the perfect, hence the beginning of a day of relaxation, play, fun, feasting and joy making just before the lent season began. Whether observed for three days or for Tuesday only before Ash Wednesday, the Carnival celebration came to be a part of the yearly fun in most countries where the Catholic church predominated. Many of the methods of celebrating Shrove Tuesday or Carnival have come down to the present time while others through their peculiarity have disappeared.

A custom common to most of the observances was the making of an effigy to represent carnival and this was carried through the streets followed by a parade at the beginning of Carnival announcing that this spirit would hold sway through the season, then on the night of Shrove Tuesday this effigy was again carried through the streets but this time to his burial, which partook of many forms, burning in the public square, drowning in the river. Early it became the custom for those participating in the Carnival celebration to mask and to garb themselves in all kinds of weird costumes. About the burial of Carnival in the parade the masqueraders were dressed to personify mourners or mummies, and the effigy itself was dressed to represent death.

At the end of the procession of the burial of Carnival often there was a cart filled with barrels of wine which policemen served to all who asked for it along the streets and much yelling and struggling among the followers of the parade or the people beside the roadway was evoked once this large effigy was completely worn out with fun making the effigy was buried or burned with much ceremony.

There are many reasons for the ease of steering the new Ford

The new Ford is exceptionally easy to steer because of the well-proportioned weight of the car, the steel-spoke wheels, the co-ordinated design of springs and shock absorbers, the size and design of the steering wheel, and the simple mechanical construction of the steering gear.

The Ford steering gear is of the worm and sector type used on his priced cars and is three-quarter irreversible.

In simple, non-technical language, this means that the car responds easily and quickly to the steering wheel, yet there is no danger of the wheel being jerked from the hands of the driver by ruts or bumps in the road. A light touch guides the car, yet you always have that necessary feel of the road so essential to good driving.

Strength of materials and careful workmanship give unusual stability to the Ford steering gear and housing.

The steering worm, for instance, is splined to the steering worm shaft and is stronger, of course, than if a single key were used to hold

the shaft and worm together. The steering worm sector is forged and machined in the same piece with its shaft.

The housing of the steering gear mechanism is made of three steel forgings, electrically welded together. This housing is then electrically welded to the steering column. Such a one-piece steel unit is naturally much sturdier than if several parts were used and bolted or riveted together.

Throughout, the new Ford steering mechanism is so simple in design and so carefully made that it requires practically no attention. The only thing for you to do is to have the front steering spindles, spindle connecting rods, and drag link lubricated every 500 miles and the steering gear lubricated every 2000 miles.

For this work, you will find it best to consult the Ford dealer. He has been specially trained and equipped to help you get the greatest possible use from your car over the long, rest period of time at a minimum of trouble and expense.

FORD MOTOR COMPANY

Indiana's Chief

Harry G. Leslie, former star football player, is the new Governor of Indiana, on whose broad shoulders falls the responsibility for reforming the Republican party in Indiana.

ny and then the mummies put off their masks, again assumed their ordinary characters of citizens, and on the morning of Ash Wednesday went to the churches and become observers of all religious customs and practices during the lent season.

In Frothingham the festival Radica, one name for the Carnival was observed by everyone throwing roots in the air, and none must appear on the streets without a root, cabbage or tuft of grass. A dance usually followed the procession here.

In Providence the effigy was called Caramanthram and was tried by judges masked and is executed by Lent on Ash Wednesday.

In Ardennes the personification of Shrove Tuesday was called Mardi Gras and was represented by a live man dressed in hay and straw, who after a mock trial had sentenced him to death was fired at but a fatal accident caused this firing practice to cease. During the trial the onlookers were supposed to be plunging into deepest grief, a spirit of acting permeating everywhere.

Following the trial and execution the young married people of a community were required to give a ball and furnish entertainment.

In Normandy on the evening of Ash Wednesday the effigy of Shrove Tuesday was buried. Here is seen the custom of thirty boys and rabble procession following the effigy, the rag-tag and bob-tail of the town was popular as part of the Carnival celebration and many came to watch the contest which usually partook of the nature of a fight. The village which carried the ball home would have the best crop of apples for the year, it was believed. This ball contest was suppressed in 1852 by five brigades of police in one place in Normandy.

At Saint-Lo the effigy was thrown into the river blazing from the oil in which it had been soaked. The famous Madame Octaves Feuillet described this observance 75 years ago, quoting one of the songs used in the celebration "Shrove Tuesday is dead and his wife has got his shabby pocket-handkerchief and his cracked old pot, sing him, sing low, Shrove Tuesday will come no more."

In Brittany a straw man was used for the effigy and the celebration was similar to that in Normandy. In Germany and Austria a formal

Sunday evening the college boys attended a musical show presented at St. Augustine's Seminary. The boys greatly enjoyed the performance, and at the end of the play, they gave "fifteen rabs" for the entertainers.

Substitute Teacher. Brothman, a member of the faculty of St. Joseph's College, Metuchen, N. J., arrived a few days ago to teach the eighth grade in the place of Brother Bertin who has been condemned to the penitentiary for a term of years for a crime committed in his bed for the past several weeks.

Attend Masses. Last Monday and Tuesday mornings the student body attended the Solemn High Masses in Our Lady of the Gulf church as part of the celebration of the Forty Hours Devotion to Our Blessed Lord. Many received communion during the masses. Last evening the church was open to the public and the church and spent half an hour before the Blessed Sacrament.

Mardi Gras Dance. Many of the invitations for the fifth annual Mardi Gras dance sponsored by class '29 have been sent out. The students of the town have very kindly offered to help out to prepare the refreshments. We are thankful to them for their kind offer.

"Some" Luck. We are going to give Kramer a prize for being the luckiest boy in the College. On the trip of the basketball team to New Orleans last Saturday, Kramer was the only one who did not get stuck in the mud, but his occupants shoved it out. When the car reached New Orleans Kramer discovered that he had lost a dollar.

condemnation of the effigy, either a man or beast, preceded the celebration and the Carnival of Shrove Tuesday. The effigy was carried by a priest and torch bearers carrying the effigy to his burial.

In Greece an effigy was borne about the streets followed by a mock priest and torch bearers carrying the effigy to his burial.

In Baden the hemp dance was celebrated on Shrove Tuesday, it being believed that the hemp would grow as high as the dancers could jump. In Prussia the girls would dance one by one in a large hoop especially decorated at midnight on Shrove Tuesday and successes in love was supposed to follow successes in hoop dances.

Among the Slovenes or Oberkrain the straw puppet was followed by a female masker who dragged a great board by a string and announced this was to show she was a forsaken bride.

In Abruzzi the grave diggers carried the effigy and followed the procession, but this custom was discontinued in 1737.

In the Salza district near Meinigen on Shrove Tuesday the pigs flesh was boiled and put in ashes and presents were exchanged.

At Ypres wicked work giants contributed to the hilarity of the Carnival, appearing also in Cassel, Hazenbroek and Nord.

In various sections of England, notably Shropshire and Rodmose, a tug of war over a rope participated in by different villages was part of the celebration, the shops closing at festival, but this was suppressed in 1831.

Another English custom was to tie a hen on a man's back and to have other players blindfolded who struck at the hen until it was killed. Cock throwing and cock fighting were popular diversions at Carnival season during the time of Henry II. After the cocks were killed they were roasted and served to the players.

In England the custom of presenting dramatic pieces known as Masques grew up as a part of Shrove Tuesday celebration. In 1612 and 1613 the Inns of Court presented at Shrove Tuesday magnificent processions, masques, pageants with gorgeous costumes, most of the celebration being in the streets, and high and low estate took part. These customs were not current in England after 1772.

Resurrection of Shrove Tuesday customs are found in various parts of Austria and Germany especially in the mountainous districts. In Spain some of the most brilliant of the grand processions were held in Lerida, Catalonia, Spain, in 1877, the infantry, cavalry, maskers on foot, on horseback and in carriages, all participated in the celebration while people from all parts of the country came to the city to look on at the processions. Three days were spent in revelry. The effigy of Carnival was named Pan Pi here and all followed the procession were attendants on this king, possibly the first time the king of carnival was named. Other features of this celebration are found incorporated in the New Orleans carnival from which all the United States take their lead, such as lighted tapers, singers along the streets, universal masking, balls and entertainments.

The immediate custom of holding carnival in the United States had its inception in France. Young Creole gallants, sons of planters and merchants, who had been educated in France looked to that gay country for their entertainment and styles upon returning home formed the first of the carnival organizations, some of which present street parades, notably Momus on Thursday night, Proteus on Monday night, Rex and Drums Tuesday night, while yet other organizations present only their brilliant balls with tableaux of dazzling beauty. The spirit of license and fun making pervades the whole carnival season in New Orleans and other towns which now put on parades, masques, Galveston, Mobile, B. C. Memphis, but the carnival is the all day making of Tuesday, to conclude from all sources, the carnival season is the day for the carnival season.

bill. When the team returned on the following Monday morning, Bro. Pifer stopped at the place where the automobile had been stuck, and Kramer got out to look for his lost bill. To his surprise the bill was lying on the side of the mudhole, a little spoiled but perfectly spendable.

Visitors. Mrs. L. G. Aschoffenburg visited her son Adolph Caplan last Sunday. Louis Ganache and his little brother were visited by their father and sister.

Mrs. E. Clark and her little daughter were over to see her son Edward. The Sandoz brothers were visited by their father, C. Sandoz, their aunt Miss L. Lardet, and their grandmother Mrs. J. L. Lardet.

A. J. Labry came over from New Orleans last Monday to see his son, Paul.

A member of class '26, John Cravin Cassidy, better known as "Strawberry" visited his brother Charles who is a senior this year.

Marcel Guenot was visited by his mother Mrs. P. Laguens last Sunday.

Mrs. Duncan B. Harding visited her little son.

Mrs. M. B. McCauley visited her son James.

Mrs. Wallace from Gulfport visited her son Tom last Friday.

Mrs. J. LeBoeuf accompanied by her daughter, Miss Annette LeBoeuf, came over from New Orleans to see her son, Lloyd, last Sunday.

The Walle boys were visited by their sister, Miss Mary B. Walle, and their cousin, Julius Steger.

Loss of Holy Cross. The Stanislaus Varsity lost a hard fought game to Holy Cross College in New Orleans last Saturday night by a score of 33-31.

The Rock-a-chaws outplayed the Micks during the first period as is evidenced by the 23-16 score at the half. The Holy Cross team is undefeated so far this season, but the Rock-a-chaws will engage them in Bay St. Louis on Feb. 15 under the supervision of a competent referee.

The Stanislaus Varsity played throughout the game with the exception of the substitution of Schiro.

Defeat Hebrews. On Saturday afternoon the Stanislaus Rock-a-chaw five defeated the stronger Hebrew aggregation by a 39-24 score. The Rocks held the upper hand throughout the entire game, which however, was hard fought. The marker at the half showed a 23-13 score in favor of Coach Perkins' proteges. Stanislaus widened the margin during the second period for a fast 39-24 close over the Synagogues. The Hebrews played a good game of ball, but the Rocks played better. Incidentally this game was refereed by Frank Belier.

The Y. M. H. A. team holds a tie for first place in the senior league in New Orleans, and will be seen on the local court March 2 and 3.

The only substitution for Stanislaus during the game was Saucier.

Juniors Win. The Stanislaus Juniors defeated the Aloysius Juniors from New Orleans, in a fast game of basketball Sunday evening.

The game was very close in the first half, neither team being able to draw away from the other. However, in the second half the local boys outdistanced their opponents by excellent passing and shooting. The final score was 58-43.

A. Kidd and Jimmie Dam did the best playing for the home team, while Strawn and LeBreton starred for the visitors.

Schedule. The schedule of the Stanislaus Basketball team for the remainder of the season is as follows: Feb. 6-7, Mississippi College Frosh at Bay St. Louis. Feb. 9-10, Elks of New Orleans at Bay St. Louis. Feb. 15, Holy Cross at Bay St. Louis. Feb. 16-17, Loyola Frosh at Bay St. Louis. Feb. 19-20, Millsaps Frosh at Jackson. Feb. 23-24, Kingsley House at Bay St. Louis. March 2-3, Y. M. H. A. at Bay St. Louis. Probable—Chicago tournament. March 20-24.

Play Two Games. The Stanislaus Cathedral basketball team were here on a week-end trip to play a two game series with the 135-lb. team. The first game, Friday night, ended in the defeat of the visitors. The Catholics took the lead shortly after the start of the game, but they were not destined to remain long ahead. The 135 pounders got down to real playing and after a series of well directed passes they obtained the lead which they continued to hold until the final whistle. The game was featured by the shooting of R. Burns of the Cathedral and the all around playing of Cantara and Glover on the home team. At the end of the half the score was 12-6 in favor of the 135 pound team, the score at the end of the game being 26-19.

The Stanislaus 135 pound team won their second game with Natchez Cathedral H. Saturday night by a score of 30-22. Hayes and Vallon shared honors for the 135 pounders while P. Burns and Johnson played best for the visitors.

In the first few minutes of play the Catholics were forced to call time out when Hayes, Vallon and Glover netted four field goals in quick succession. Then the visitors rallied and Johnson scored the first field goal for his team. This rally lasted all the first half, at the end of which period the score stood 15 to 12 in favor of Stanislaus.

In the second half the local scorers 15 more points while the Natchez team netted only 10.

Something to See

Oliver, I see this new fire fighter has a pack of 1000 matches. I see nothing. You ought to see the new way at our boarding house. Detroit News.

THE DESPERATE LOVER

THIRD INSTALLMENT

WHAT HAS HAPPENED BEFORE

Palermo is the scene. There an exile, Leonardo di Marioni, has come for love of Adrienne Cartuccio, who spurns him. He meets an Englishman, Lord St. Maurice, who falls in love with Adrienne on the spot. Leonardo sees the sister, Margherita, who tells him his love for Adrienne is hopeless. But he pleads with her to arrange an accidental meeting to say farewell, between Adrienne and him.

She consents. That night the Englishman is informed of an attempt being made to carry off Signorina Cartuccio and Margherita, who are waiting by brigands employed by a rejected suitor, on a lonely road. He rushes to the scene and proves able to rescue the ladies.

NOW GO ON WITH THE STORY.

The two ladies looked at their preserver standing in the middle of the road—fair and straight and tall, like a Greek God, but with a terrible fury blazing in his dark blue eyes. "You are not hurt, I trust?" he asked, his breath coming quickly, for he was in a towering passion. He was not speaking to the darker of the two girls at all; in fact, he was unconscious of her presence. He was standing by Adrienne Cartuccio's side, watching the faint color steal again into her cheeks, and the terror dying out of her eyes, to be replaced by a far softer light. Her black lace wrap, which she had been wearing in Spanish fashion had fallen a little back from her head, and the moonlight was gleaming upon her ruddy golden hair, all wavy and disarranged, throwing into soft relief the outline of her slim, girlish figure, her heaving bosom, and the exquisite

transparency of her complexion. She stood there like an offended young queen, passionately wrathful, and he left them at the door, she gave him a white flower which he had found courage to beg for.

"May I call on you tomorrow?" he asked, trembling for the answer. "If you would like to, yes, she answered readily. "Come early, if you have nothing to do, and will give you afternoon tea à l'Anglaise. By the bye," she added, a little shyly, "is there not something which you have forgotten?"

He divined her meaning at once. "Of course, I ought to have told you my name," he exclaimed hastily. "How stupid of me. It is St. Maurice—Lord St. Maurice."

"Lord St. Maurice! Then are you not the fortunate possessor of that delightful little yacht in the harbor?" she asked, looking at him with a smile.

"Yes, if you mean the Pandora, she's mine. Do you like sailing? Will you come for a sail?" he asked eagerly.

"Well, talk about it tomorrow," she laughed, holding out her hand. "Good-night."

He let her hand go. If he held it a moment longer, and a little more firmly than was absolutely necessary, was he much to blame?

"Good-night," he said. "Good-night, Signorina," he added bowing to Margherita. "I shall come tomorrow afternoon."

Then he turned away and walked with long swinging steps back to the hotel.

"Margherita!"

She had found her way into a lonely corner of the villa grounds, and with her head resting upon her hands, she was gazing across the blue-sunlit waters of the Bay. Below, hidden by the thickly growing shrubs,

"He is—is not dead, is he?" Margherita asked.

"Not he. I shouldn't say that he was very badly hurt, either."

The Englishman declared, bending down and listening to his breath. "More frightened than anything. He'll be up and off directly we leave. You will let me see you home?" he continued, speaking to Adrienne.

She looked up at him with a gleam of humor in her wet eyes. "You don't imagine that we should let you go and leave us here?" she said. "Come, Margherita."

The Englishman looked at the other girl almost for the first time, as she came up and joined them. Her dark eyes were full of tears and her face was troubled. There was very little relief of thankfulness for her escape in her expression. The Englishman was no physiognomist, but he was a little puzzled.

"There is no danger now, Signorina," he said reassuringly. "Tomorrow I will go to the police, and I dare say that we shall get to the bottom of the whole affair."

She shuddered, but made no reply, walking along by their side, but a little distance apart. As for the Englishman, he was in paradise. To all intents and purposes, he was alone with Adrienne Cartuccio, listening to her low voice, and every now and then stealing a glance down into those wonderful eyes, just then very soft and sweet. That walk through the scented darkness, with the far-off murmur of the sea always in their ears, was like the dawning of a new era in his life.

"He is—is not dead, is he?" Margherita asked.

"Not he. I shouldn't say that he was very badly hurt, either."

The Englishman declared, bending down and listening to his breath. "More frightened than anything. He'll be up and off directly we leave. You will let me see you home?" he continued, speaking to Adrienne.

WILL DEMPSEY GO BACK TO RING IF SHARKEY WINS OVER STRIBLING?

Doubtful if Public Will Spend Money to See Such Contest—Only One Guess Allowed to a Customer In Outcome of Forthcoming Sharkey-Stribling Meet—Babe Herman Ended Sid Terris Career.

There is talk about Jack Dempsey fighting the winner of the Sharkey-Stribling fight. In fact, Jack has taken to the road for training and the Sharkey crowd says it is a "verbal agreement" that Sharkey will get a battle with Dempsey if he wins over Stribling.

With all due respects we doubt if Dempsey goes back into the ring. He might be willing to take a shot at Sharkey, but we are not so certain that the public is anxious to see a fight of its money to see that fight. Some faster fighter against Dempsey would probably repeat Tunney's lesson, jabbing him in the face until his eyes are about closed and then hitting him in the body. If that fight were to come off, it would be a long one, unless the referee stopped the mixing. What an ending this would be for Dempsey!

Cannot Foretell Outcome of Clash.
As far as the outcome of the Sharkey-Stribling clash is concerned we sit in the watchful waiting class, without much concern either way. A Sharkey victory will not put up the horizon much. A Stribling victory might lead to more interest. As for predictions, we are simply not

at home. The Christner victor, only told us that Sharkey can hit, which we knew before, but how often he can land on Stribling is another matter. The Georgia youngster has shown such enough to knock 'em out in the wilds, but what will his punch do to the Boston man? Only one guess allowed to a customer.

Sid Terris Ended.
The fistic career of Sid Terris probably ended last week in New York when Babe Herman, of the Pacific Coast, knocked him out in the sixth round. The fight was rather slow. Ferris scored a knock down in the fifth but Herman came back to win by a knock out in the sixth after missing more right hand punches in the first half of the round than an ordinary fighter misses in a lifetime.

Some man.
Or any man.

Mirrors of The State.

Mississippi Happenings

POPS AT PAPA—

Frown on her forehead, gun in her hand, Mrs. Zac Lewis popped into her husband's Clarksdale restaurant, started shooting. Three times did she aim at her husband's head, pull the trigger. Zack doesn't know her reason, and so far she hasn't told.

VOODOO DIDN'T DO—

Because the \$50 worth of charms and incantations given him by 310-pound Voodoo Doctor John Scott didn't bring his runaway wife from Chicago back to Gulfport, Julius Rayner gathered up the bogus bottles and powders the "doctor" had given him, carried them to the sheriff. Scott is in jail waiting for his voodoo to vindicate him.

G. O. PATRONAGE—

Because they can't see just why Perry Howard, blarney Mississippi black Republican, should have deposited \$37,000 in the bank for 18 months when his salary in the federal department of justice is only \$6,000 for that period, Mississippians are demanding further investigation of the record of the state's most notorious G. O. P. officeholder.

NUMBERS PLEASE—

On the switchboard in front of Vicksburg's "hello girls" flashed at one time 200 red lights. A frantic "number please" from the whole force brought no response. A few blocks away a plumber continued digging in which he had been interrupted by having to cut the old lead pipe an underground telephone cable that was in his way.

TOO MUCH—

Will Tom Johnson of Trimcane has spent most of his 19 years getting his bones and joints in good shape at famed Dr. Campbell's clinic in Memphis. Walking near his home last week, Johnson was hit by a falling tree, bones in both legs again broken.

PEANUTS—

Two-year-old John W. Purvis of Ripley put peanuts in his mouth, chewed, swallowed. Once he picked one out, he started coughing. It started down like the rest, suddenly stopped and hung. Rushed choking and coughing to Memphis, he was re-

lieved by the combined efforts of two doctors.

DUCKED—

A fat wild duck flew up to a roadside pond, found himself suddenly in the midst of flying glass and feathers. He had smashed the windshield of a car being driven from New Orleans to McComb by Clifford Rawls and Eugene Loche. Loche's face was lacerated.

GOES ASHOOTING—

Marie Brown of Belzoni went shooting. Nobody would have minded except that she chose a Clarksdale hotel room as her blind, Clarksdale as her game. From her window she popped away at whoever happened to be passing in the street below. Many were scared, none killed.

HUMBUGS THE HUB—

After she had swindled half a dozen merchants in Laurel and the story had been published in all the state's dailies, Mrs. George E. Gilmore went 30 miles down to Hattiesburg, did it all over again, got away without being caught.

MARBLE FALLS—

At Crystal Springs Mrs. Emma Siebe sat in front of the fire, decided to get up. Feeble, she reached for the marble mantle piece to aid her, pulled it down upon her side. Pinned to the floor, she lay in misery until help reached her and lifted the weight. She is recovering.

\$2 PER VOTE—

If the women are going to vote, let them pay their own poll tax—so reason men of Scott county who have trooped to the sheriff's office with cash and checks during recent days. Little interested in a vote that costs two dollars, most women have stayed at home, will have to stay at home on 1929 election days.

PRINTS—

If you rob a safe, or steal a car or disturb the peace in Jackson hereafter, be not liberal nor reckless with finger prints if you want to stay out of jail. Within the next few days a new finger print expert will come to the capital city to aid the Jackson police department.

RECEIVERS TAKE OVER AFFAIRS OF LONG LAKE BRIDGE

Pontchartrain Concern Said to be Involved More Than \$5,000,000

New Orleans—The Pontchartrain Bridge Corporation, operators of the Lake Pontchartrain toll bridge, was placed in the hands of a receiver Monday morning by United States District Judge Wayne G. Borah, on the petition of Jahncke Service, Inc. James W. Smith, was named as receiver to administer the affairs of the bridge company in the interest of its creditors.

The Jahncke company sets out in its petition that the bridge company owes the service company \$25,591.71 for materials and labor. Of the original debt due petitioner, it is pointed out, the bridge company has paid \$10,225.61. The bridge company, it is stated admits owing the Jahncke corporation \$18,470.

While the bridge corporation claims to be solvent, the petitioner states, "we understand on good authority that its business is much involved and that it owes obligations amounting to over \$5,000,000."

The petitioner avers that the bridge company has no funds on hand with which to meet its current expenses. The appointment of a receiver it was understood, will not interfere with the operation of the bridge, the business of which will continue to be operated as usual.

Judge Borah named the law firm of Monroe and Lemann as attorneys for the receiver.

The Pontchartrain bridge built at a cost of more than \$5,000,000, is the longest single concrete span in the world.

40 HOURS DEVOTION SERVICE AT OUR LADY OF THE GULF

Season is Attended by Fine Sermons and Good Music—Large Congregations

The service attendant upon the Forty Hours of Devotion at Our Lady of the Gulf Catholic church, extending through solemn high mass Monday and Tuesday mornings at 6 o'clock, and sermons each of three nights, Sunday through Tuesday. The sermons, good music and large congregations were noted at the services.

Rev. A. J. Gmelch as pastor was in charge of all services and was aided by Rev. Leo Fahey, Rev. Patrick McAlpin and Rev. Henry Mortier. The sermon Sunday was delivered by Rev. Fahey, that Monday by Rev. McAlpin and that Tuesday by Rev. Mortier.

The music under the direction of Mrs. Winfield Partridge included the singing Sunday morning of Marzio's Fifth mass, and the beautiful hymns at the three night services. The Brothers from St. Stanislaus College sang at the Monday and Tuesday morning masses.

Blessing of Candles
Saturday the Feast of the Purification of the Blessed Virgin Mary mass was celebrated at Our Lady of the Gulf church and the service of the blessing of the candles was performed.

A Bride at Eleven

Selinda Clendenin, 11, of Carbondale, Ill., became the bride of Rev. Joseph M. Clendenin, who is now in jail at Marion, Ill., charged with bigamy and perjury, while his young bride is back at school.

Claire Luce, 16-year-old girl, of New York, whose marriage to Clifford W. Smith resulted in his being cut off with \$300 in silverware by his mother, the wife of Newcomb Carlton, president of Western Union.

COAST ADVERTISED BY PENNSYLVANIA RAILROAD COMPANY

Beauties of Gulf Coast and New Orleans Advertised on Folders and Cards

The Pennsylvania Railroad is advertising New Orleans and the Gulf Coast, in connection with their through sleeper service via Southern Railway, West Point Route and L. & N. railroad. The company is carrying a three quarter page write up of New Orleans and the Gulf Coast, on the dining car menu cards, telling of the attractions along the beautiful Gulf Coast, Pensacola, Mobile, Ocean Springs, Bloxi, Gulfport, Pass Christian and Bay St. Louis to New Orleans, all of which provides a very delightful climate for the tourist as a winter resort and also gives some details of the history and mystery attached to this section of the country as well as the many attractions and recreation facilities for the visitors. I. V. Colly, passenger agent of the L. & N. railroad, called attention to the advertising also tells of the Mardi Gras attractions at New Orleans and of the thousands of visitors from all parts of the country each winter to New Orleans and other popular resorts along the Gulf Coast.

Last year the Pennsylvania carried considerable space on the time table folders relative to the attractions for the Gulf Coast, he recalls.

ART ASSOCIATION TO HOLD EXHIBIT AT BILOXI LIBRARY

Prof. Wm. Woodward, president of the Gulf Coast Art Association, announces that the third annual exhibit of members' work will open in Biloxi February 17 and close February 24, and that following this exhibit in Biloxi, that the exhibit will move to Bay St. Louis as it did last year and that members from Bay St. Louis will join to further the work of art advancement.

Three gold prizes will be offered this year in the exhibit. The city commissioners of Biloxi offer a gold medal for the "best Gulf Coast scene." The Peoples Bank of Biloxi offers \$25 in gold for the "best oil painting." The First National Bank of Biloxi offers \$10 in gold for the "best portrait in any medium." Artists living or working along the Gulf Coast are invited to join this association and send in their paintings, artcrafts, etc. to the Biloxi Library, lower floor, February 9, from 10 to 12 a. m. and 2 to 5 p. m. Work will be received only from paid up members as the association is cooperative.

Turn the Tables

Friend—How did you come to marry your employer?
Ex-Stenog—My dear, I couldn't stand his dictatorial manner any longer.—Boston Transcript.

Snow laden storm lashes western Europe; 11 believed lost.

An Oklahoma Mother Says:

"BLACK-DRAUGHT is a fine medicine to give to children. I use it for mine whenever I need to give them a laxative. It keeps the mind taking it when I make it into a tea, and it quickly relieves constipation and the bad symptoms which come from it. I can recommend it to other mothers, for I have found it useful in my home."
"When I was a child my mother gave it to me whenever I complained of not feeling well. I have always taken it for upset stomach and constipation. It is about the only medicine I have to take. A few doses of Black-Draught now and then keep my system in order. My husband takes it, too. I hardly see how I could keep going without Black-Draught. It has become a standby with us in keeping the children and ourselves well."—Mrs. Luther Brasfield, Claremore, Okla.

BLACK-DRAUGHT for Constipation, Indigestion, Biliousness
"What you need is a good sound dose of BLACK-DRAUGHT."

RECREATION CASH VALUE DISCUSSED BY CO. HOME DEMONSTRATION AGENT

Returns to the Community Investing in Recreational Facilities Large

"The cash value of recreation and recreational facilities is infinitely greater in the returns than in the original cost of the facilities," Miss Mayme O'Dom, home demonstration agent of Hancock county, said. "Economically, recreation is just as much a part of the farm's and home income as is the fodder, corn, butter or other produce," she believes.

In illustration of her point Miss O'Dom calls attention to the many known instances where in economic centers it has been found necessary by the mill or factory owner to supply amusements, entertainments and recreations in order to keep a satisfied group of employees speaking especially of Dayton, Ohio, where the McCall Publishing Company moved its great publishing plant because Dayton was "liveable" as judged by its parks and recreational facilities.

"Not only is the first gain economically speaking to be found in the satisfied resident or worker, but likewise in the further happiness which means permanent resident," Miss O'Dom pointed out.

"A second advantage from recreational facilities is seen in increased land values about such centers," she said, discussing the situation found in Essex county, New Jersey, where the park commission found in a survey that the valuation of property about four parks in Newark, where an assessed valuation of \$4,143,850, in 1905 had increased in 1926 to \$29,266,000, because of the popularity of the property adjoining the park sections for residences.

"What recreational facilities mean in a large way to the people of the crowded Northern and Eastern cities they mean in a proportionately small way to our boys and girls and men and women of Hancock county," Miss O'Dom said. "The work of the extension department of the Mississippi A. & M. College, recognizes the great value to the people of the rural communities of recreations and teach as a definite part of the work of the department ways of being happily entertained in the community."

First the men and women's and the boys' and girls' clubs form a social nucleus and the social instinct is developed with well organized play, amusements at home, in the school and at picnic gatherings. The latest development of the recreational movement in the department is the community organization in which every resident of a community may be a member and participate. The work of the organization is bounded only by the interest and enthusiasm of the members and the value toward increasing social conditions in the community which has resulted from this organization is incalculable.

Leetown community conceived the idea last year of creating a definite social center in the form of a park and playground where every resident of the community could meet for

play and amusement. This park has now become a fact and is rapidly taking on the appearance of not a rural woodland but a beautifully kept park where there are swings and other playground equipment for the children, where there have already been constructed two outdoor fireplaces for the preparation of picnic meals, where there will be a platform for the band to play and speakers to stand, where there will be in the near future, it is hoped, a pavilion where all types of entertainment may be held at all seasons, where there will be electric lights even though the park is twenty miles from the nearest high power lines, where there will be a swimming pool, and where the boys and girls of the community, their parents and their friends, can meet and greet each other, in much the same conditions as the city dweller finds in his parks.

This Leetown park has become possible through the vision of Miss O'Dom.

Dom and the fine corps of men and women who make up the officers and members of the Leetown Community organization. Each member has done his or her part, first by the owner of the land loaning it for a park, secondly by many of the men giving their time and labor to clear up the underbrush and clean up the park space, thirdly, by the fine cooperation of friends of the community including the county and road forces which aided in the work. Through the generosity of John Rester the lights will be furnished from his own light plant at his home near the park. Through the kindness of Joseph L. Favre of Bay St. Louis, an expert worker in brick and mortar, the first of the outdoor fireplaces was built from materials for this being donated by Mont's Garage of Bay St. Louis. It would be difficult to name the many agencies working toward the success of this rural park.

"We believe that Leetown farmers and members of their families will be happier and the community a more pleasant place in which to reside as a result of this first step in securing adequate recreational facilities for their entertainment," Miss O'Dom said.

Her appeal goes to every community to select a space and create a park. Land in the country is not so expensive as in the cities and locations in every community can be secured for beautiful parks. Rather bring the enjoyments of the city to the rural dweller than take him to the city and the resultant good will be seen in definite cash values of return to the community.

Give your Order to any Telephone worker

IT'S easy to have telephone service in your home. And it is not necessary to visit the Business Office to arrange for the installation.

Any telephone worker—operator, lineman, or clerk—will quote rates, give you detailed information about the service. They will be glad to take your order, too.

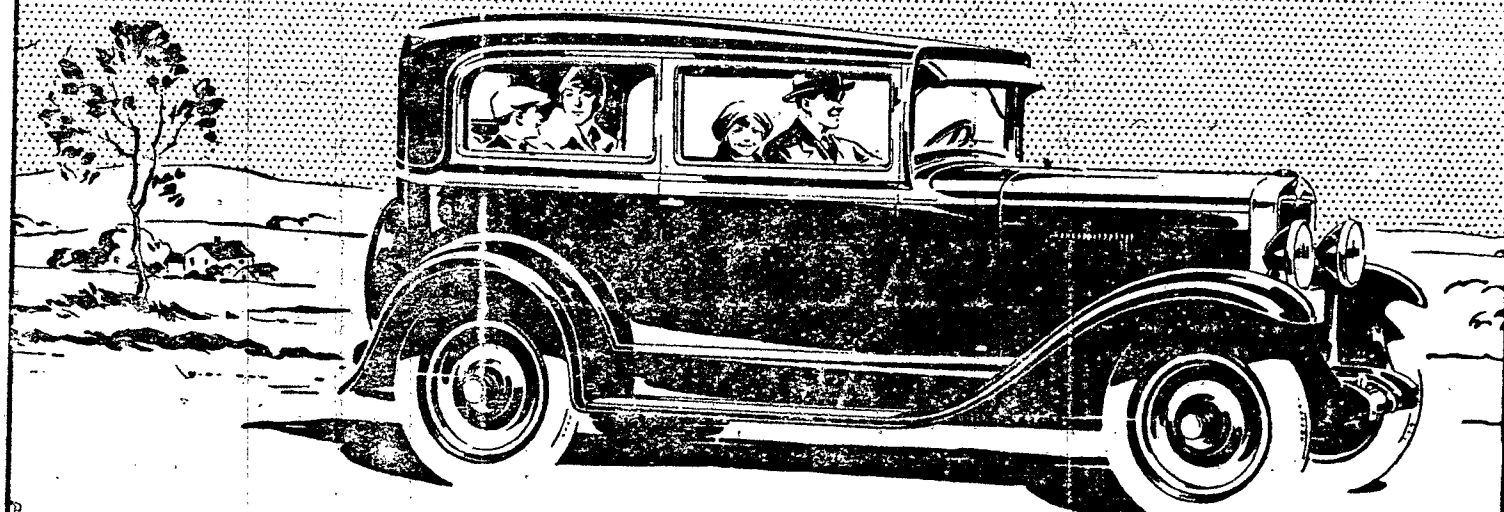

Remember that telephone service costs only a few cents a day; a small sum compared to the benefits it returns.

with increased Speed and Acceleration!

Marvelous six-cylinder smoothness throughout the entire speed range! A freedom from vibration, drumming and rumble that makes driving and riding a constant delight! Increased speed and acceleration, with 32% more power for hills and heavy going!

Such are the qualities of performance now available in the price range of the four. Such are some of the outstanding reasons why the new Chevrolet Six is enjoying the most triumphant public reception ever accorded a Chevrolet car.

If you have never driven the new Chevrolet Six, you are cordially invited to come in for a demonstration.

—a Six in the price range of the four!

QUALITY AT LOW COST

1929 Improvements in the PRINTING DEPARTMENT of THE SEA COAST ECHO

is the order for the New Year.

ALREADY during the last two weeks we received an addition to our major machinery equipment and brand new faces of type.

Our new job type represents the very latest faces and we are ready for the New Year. Like our newspaper, the policy of The Echo's printing plant is "Onward and Upward," and there will be no stinting on improvements.

Plenty of equipment, ample and high-grade workmen, insured prompt and satisfactory service.

Don't forget us when in need of printing—no order too small, none too large.

Remember, our prices are lower than elsewhere.

The Sea Coast Echo

CITY ECHOES.

—Miss Gladys Askew Dillman of Gulfport, spent Wednesday in Bay St. Louis, on her way to Biloxi, a witness in federal court.

—D. Eastman, special representative for the Associated Services, Inc., of New York City, was a business visitor to Bay St. Louis Wednesday.

—Coty's Powder and Coty's Compact, both for the price of one, at Beach Drug Store. See ad bottom of this column.

—Cossard Corsettes and Girdles at 1-3 off—Mauffray's Store.

—C. Greer Moore motored to Jackson during the early part of the week in the interest of farming and realty affairs in that section.

—Miss Corinne Gleason came to from New Orleans Sunday evening to be the house guest of Misses M. R. and Hermie Perkins for the week.

—Patrons of both banks will take notice both places of business will be closed for the day, Tuesday, 12—Mardi Gras Day.

—Miss Julia Blaize spent the week-end in New Orleans visiting friends and participating in social events incidental to the pre-Carnival season.

—Horace Leche, Jr., and Miss Gabriel Erickson of New Orleans spent the past week-end pleasantly as the guests of Mr. Leche's mother, Mrs. H. Leche of Carroll avenue.

—Several communications intended for this issue of The Sea Coast Echo were tendered too late for publication. Too many contributions are handed entirely too late and fail of publication. We regret this.

—Mr. P. V. Lacoste is confined at his home this week and detained from business by a case of blood poisoning from an infected sore on his leg. He is improving, however, with Dr. H. S. Lewis, attending.

—Mr. and Mrs. J. P. Russ, Mrs. Richard Koch and daughters, Misses Irma and Bertha, attended a delightful surprise birthday party in Gulfport Thursday night of last week in honor of Mrs. Oswald Cary, daughter of Mr. and Mrs. Russ.

—Schedule for Lenten services for the various Catholic churches in Bay St. Louis and Waveland and also local Episcopal churches, appears in the news columns of this week's Echo, and will be found not only worthy of perusal but will be well to keep for future reference.

—Misses Agnes and Antoinette Schultz and Miss Mercedes Mioton report that Sunday was a fine day for hiking. They left Bay St. Louis in the morning and hiked to Pass Christian, where they visited friends and returned to the Bay in the afternoon by motor. These young ladies enjoyed their walking trip so much that they plan another soon.

—Next Tuesday, Mardi Gras, Mayor Traub and city commissioners have proclaimed that day a holiday in Bay St. Louis, suspending business and all serious avocations for the day.

—With a Mardi Gras celebration at New Orleans, Biloxi and Mobile, many will take advantage of the holiday to get away from the serious pursuit of the day.

—Added joy has come to the home of Mr. and Mrs. Anthony J. Piazzi in Ulman avenue. A visit from the stork during the week brought a little sister to the old child and a son to the family. Both mother and child are doing well, and the father, senior member of the well-known and popular firm of Piazzi Bros, local tonsorialists, is exceedingly and correspondingly happy.

—The A. & G. Theatre is to be complimented for its enterprise in having Leo, the Metro-Goldwyn lion exhibited here for a while Tuesday afternoon, in front of the theatre building. A crowd of unusual proportion was present and viewed the king of beasts in all his royal glory and native pomp. Tru truck with its cargo and cage motored away to spend the night at Bogalusa.

—Born to Mr. and Mrs. Charles Capdepon on February 2, a bouncing baby boy weighing twelve pounds. Mr. Charles Capdepon is the son of Mrs. Peter Capdepon. Mr. Capdepon resides in New Orleans, La., where he is plant supervisor for the Southern Bell Telephone Company. The mother and baby are both doing well. Mrs. Charles Capdepon is the former Miss Mildred Cohen of Bogalusa, La.

—A message from New Orleans Tuesday morning carried the distressing news of the death of James P. Freret, III, son of Alice Lafre and the late James P. Freret, former residents of Carroll avenue, Bay St. Louis. He was an only child of his widowed mother, aged 14 years, and was home from Spring Hill College, at Mobile, for the holidays when stricken ill. He was taken to Toure Infirmary, where he lingered since he waged a valiant battle with the inevitable. Mrs. Freret has the sympathy of a wide circle of friends both in New Orleans and the Gulf Coast section in her bereavement.

—Cossard Corsettes and Girdles at 1-3 off—Mauffray's Store.

—Here From Tulane.

—A party including Miss Irene Selier, Miss Willie Lee Woodward and Miss Elizabeth Ellison, all of Tulane, motored to the Coast for the week-end visiting Miss Selier's parents, Mr. and Mrs. R. A. Selier. Sunday the party enjoyed a delightful motor trip along the Coast. Miss Woodward is a professor at Tulane. Miss Ellison and Miss Selier are students.

\$50,000.00 DAMAGE CASE COMPROMISED IN FEDERAL COURT

Damage Suit Resulting In Death of Helen Hudson Last Summer is Settled

The fifty-thousand dollar damage suit in which Mrs. Hudson of New Orleans, sued Miss Gertrude Perkins of Bay St. Louis, for the death of Helen Hudson, her daughter, which occurred as a result of an auto collision last August at North Beach Boulevard and Ulman avenue, intersection of Old Spanish Trail bridge over the Bay of St. Louis, was settled last Monday in the Federal court at Biloxi, when a compromise was settled after the witnesses had been heard and the case had gone to the jury. The lawyers made the compromise. The plaintiff is to receive \$6,000 as a result.

Miss Perkins was represented by Carl Marshall and Walter J. Gex.

COMMERCIALISM IS FOE OF BEAUTIFUL JAPONICA PLANT

The Last of Once Beautiful Garden in Heart of City—Nicholson Makes Purchase

Mrs. Leonhard J. Nicholson, wife of the publisher of the New Orleans Times-Picayune, became the owner of a beautiful japonica tree that has been the last plant to withstand the encroachment of commercialism in Main street, when on Monday she purchased the plant from Dr. Ward, purchaser of the former Breath home.

This prize species was transplanted to the Nicholson summer premises on the Waveland beach boulevard where it will enhance the beauty of the already attractive grounds.

This plant of the japonica is the last of a beautiful garden, the pleasure and pride of Mrs. Madeline Breath, wife of Judge Breath, and one of the finest gardens in this section. All of the once strictly residential property has been sold for commercial use and gradually trees, flowering plants and other shrubbery had to make way for more stores and exacting uses until the lone japonica endured as long as possible its unprotected position. Like a lonely sentinel it stood the test to the last ditch.

The plant, Judge Breath states, was planted by his good wife some thirty-five years ago.

IN SOCIAL CIRCLES

(By Our Society Editor)

A Debutante Fair.

(Lines to Miss Louise Gertrude Perkins on her Flower Ball at New Orleans.)

Of debutantes the fairest of the fair,
With all the Creole's lovely grace,
Like butterfly gaily upon the air,
Floating in mazes of the dance.

Love hovers round thy heart with
Singing his song at beauty's shrine,
Honors and gifts are showered at thy feet,
In southern moonlit groves divine.

Dance nimbly on like nymphs from
fairland,
Flitting in Carnival and Ball,
The gallant beaux are sighing for thy hand
And loudly for thy favors call.

Tonight a Queen in splendor reign-
ing there,
The loveliest of garden bright,
Roses and violets and flowers fair
Have come to burst upon thy sight.

Let music swell and die in sweet
delight,
In dreams of magic dancing grace;
A Queen, the happiest in the world
Tonight
My verse waited to thy place.

RUTHERFORD J. LINCOLN,
Canon City, Colo.

CONGENIAL NINE MEET.

Mrs. K. W. Peppereene was hostess Monday afternoon to a pleasant meeting of the Congenial Nine Bridge Club. An interesting game resulted in the prize going to the hostess.

Two guests joined the party for the afternoon, Mrs. Sara Powers and Mrs. Borzonier. Members playing were Mesdames Chas. G. Moreau, E. J. Leonard, J. U. Jordy, H. U. Canty, H. C. Glover and K. W. Peppereene. A tempting salad course was served at the close of play. This club enjoyed a valentine party meeting last week with Mrs. Chas. G. Moreau at her home on Carroll avenue.

PANTHERS DEFEAT STRONG CREOSOTE FIVE, SCORE 29-21

Local Independents Play Fine Game Winning Over Strong Visiting Team

Monday night the Bay Panthers won from the Gulfport Creosote Co.'s five, by the score of 29 to 21. The game in the first half was not up to the usual form of the panning. Panthers, poor pass work and the fighting left all to "Mermaid" Stehman. (By the way this fellow can really do deep sea diving). In the first period the visiting team had the lead most all the way. In the second half the Bay boys grabbed the lead and were out of danger from then until the whistle.

For the Creosoters, Branch, long lanky center was the main stay, scoring all but six of the points for his team. Von Ehren, elongated center for the Panthers shot a couple of goals that seemed impossible, except to a contortionist of his ability.

The next game will be played in Gulfport Wednesday night at the Gulfport high school gym. This will be a return game, and ought to be a good one, as the Panthers were the victors in the last game at the Creosote team in seven starts.

Leo Seal Again Out

Leo Seal, popular cashier of the Hancock County Bank was out Wednesday for the first day following an illness of almost a week. Mr. Seal who is a prominent business man of this section is much missed when he is not able to be at his desk and his friends are glad that he is now recovered. He attended the regular Rotary luncheon Wednesday where he is always a most welcome member in attendance.

He attended the regular Rotary luncheon Wednesday where he is always a most welcome member in attendance.

—Leo Seal, popular cashier of the Hancock County Bank was out Wednesday for the first day following an illness of almost a week. Mr. Seal who is a prominent business man of this section is much missed when he is not able to be at his desk and his friends are glad that he is now recovered. He attended the
